

The Shropshire Gateway Educational Trust

Online/E-safety Policy

Author	Katie Jones
Review Cycle	Annual
Date Approved	July 2024
Approved By	SGET Board
Next Review Date	July 2025

Development / Monitoring / Review of this Policy

This e-safety policy has been developed in conjunction with Telford and Wrekin IT services as the supplier of IT managed service for use by:

- Headteacher, Senior leaders
- E-Safety Officer / IT Lead (in many of our schools this will be the same person)
- Staff – including Teachers, Support Staff, Technical staff
- Governors and Directors
- Parents and Carers
- Community users

It will be shared with the whole school community.

Schedule for Development / Monitoring / Review

The E-Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to e-safety or incidents that have taken place. The next anticipated review date will be:	1 st July 2025
Should serious e-safety incidents take place, the appropriate school leads will be informed:	Executive Head teacher, Headteachers, Trust Business manager, Deputy Headteachers, IT lead, Safeguarding lead, Network Manager/Technicians

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (e.g. Senso)
- Internal monitoring data for network activity

Introduction and aims

ICT is an integral part of the way our schools work, and is a critical resource for pupils, staff, governors, volunteers and visitors. It supports teaching and learning, pastoral and administrative functions of the school.

However, the ICT resources and facilities our school uses also pose risks to data protection, online safety and safeguarding.

This policy aims to:

- Set guidelines and rules on the use of school ICT resources for staff, pupils, parents and governors
- Establish clear expectations for the way all members of the school community engage with each other online
- Support the school’s policy on data protection and safeguarding
- Prevent disruption to the school through the misuse, or attempted misuse, of ICT systems
- Support the school in teaching pupils safe and effective internet and ICT use

This policy covers all users of our school’s ICT facilities, including governors, staff, pupils, volunteers, contractors and visitors. Breaches of this policy may be dealt with under our disciplinary policy, behaviour policy, staff discipline policy, safeguarding policy, staff code of conduct.

Scope of the Policy

This policy applies to all members of the Trust community (including staff, pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of Trust ICT systems, both in and out of the Trust.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the Trust site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place outside of the Trust, but is linked to membership of the Trust. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see DFE guidance: [Searching, Screening and Confiscation](#)). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The Trust will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate e-safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the e-safety roles and responsibilities of individuals and groups within the Trust:

Governors / Board of Directors:

Governors/Directors are responsible for the approval of the E-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about e-safety incidents and monitoring reports. A member of the Governing Body has taken on the role of E-Safety through the Safeguarding Governor Role. The role of the E-Safety Governor / Director will include:

- receiving updates from the E-Safety/IT Lead/Technician (as required)
- receiving reports from monitoring of e-safety incident logs
- reporting to relevant Governors committee

Headteachers and Senior Leaders:

- **The Headteacher has a duty of care for ensuring the safety (including e-safety) of members of the school community**, though the day to day responsibility for e-safety will be delegated to the E-Safety Co-ordinator / IT Lead/ safeguarding Lead.
- **The Headteacher and (at least) another member of the Senior Leadership Team / Senior Management Team should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff.** (see flow chart on dealing with e-safety incidents – included in a later section – “Responding to incidents of misuse” and other relevant body disciplinary procedures).
- The Headteacher / Senior Leaders are responsible for ensuring that the E-Safety Coordinator / IT Lead and other relevant staff receive suitable training to enable them to carry out their e-safety roles and to train other colleagues, as relevant.
- The Headteacher / Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal e-safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.
- The Senior Leadership Team / Senior Management Team will receive regular monitoring reports from the E-Safety Co-ordinator / IT Lead.

E-Safety Coordinator / IT Lead:

- takes day to day responsibility for e-safety issues and has a leading role in establishing and reviewing the school E-safety policies / documents

- ensures that all staff are aware of the procedures that need to be followed in the event of an e-safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority / relevant body
- liaises with school technical staff
- receives reports of e-safety incidents and creates a log of incidents to inform future e-safety developments, (**Examples of suitable log sheets may be found later in this document**).
- meets with E-Safety (Safeguarding) Governor / Director to discuss current issues, review incident logs etc.
- attends relevant meeting / committee of Governors / Directors
- reports regularly to Senior Leadership Team

IT Provider

Senior leaders should work closely with governors or proprietors, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring. Our IT service provider includes an external service provider called T&W IT Service and technicians on site and remotely.

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL works closely together with IT service providers to meet the needs of our settings. System specific training and support, for example SENSO, are available.

T&W IT Service, Computing Lead/DSL are responsible for:

- maintaining filtering and monitoring systems
- providing filtering and monitoring reports
- completing actions following concerns or checks to systems

T&W IT Service, the senior leadership team and DSL work together to:

- procure systems
- identify risk
- carry out reviews
- carry out checks

It is the responsibility of the school to ensure that the provider carries out all the online safety measures that the school's obligations and responsibilities require. It is also important that the provider follows and implements school Online Safety Policy and procedures.

T&W IT Service is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Section below to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from local authority / MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to (insert relevant person) for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person (see appendix 'Technical Security Policy template' for good practice).
- monitoring systems are implemented and regularly updated as agreed in school policies

Network Manager / Technical staff:

The Trust has a managed ICT service provided by an outside contractor, it is the responsibility of the Trust to ensure that the managed service provider carries out all the e-safety measures that would otherwise be the responsibility of the school technical staff, as suggested below. It is also important that the managed service provider is fully aware of the Trust e-safety policy and procedures.

The Network Manager / Technical Staff / Co-ordinator for ICT / Computing is responsible for ensuring:

- **the school's / academy's technical infrastructure is secure and not open to misuse/malicious attack**
- **that the Trust meets required e-safety technical requirements and any other relevant body E-Safety Policy / Guidance that may apply.**
- **that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed**
- filtering is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person.
- that they keep up to date with e-safety technical information in order to effectively carry out their e-safety role and to inform and update others as relevant
- that the use of the network / internet / Virtual Learning Environment / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Headteacher / Senior Leader; E-Safety Coordinator / Safeguarding Lead for investigation, action, sanction
- that monitoring software / systems are implemented and updated as agreed

Teaching and Support Staff

Teaching and Support Staff are responsible for ensuring that:

- **they have an up to date awareness of e-safety matters (e.g. current issues; the 4Cs – content, contact, conduct, commerce) and of the current Trust e-safety policy and practices**
- **they have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP)**
- **they report any suspected misuse or problem to the Headteacher / Senior Leader ; E-Safety Coordinator, IT Lead / safeguarding lead for investigation, action, sanction**
- **all digital communications with pupils / parents / carers should be on a professional level** and only carried out using official school systems
- e-safety issues are embedded in all aspects of the curriculum and other activities
- pupils understand and follow the e-safety and acceptable use policies
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Child Protection / Safeguarding Designated Person / Officer

This person should be trained in e-safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

It is important to emphasise that these are child protection issues, not technical issues, simply that the technology provides additional means for child protection issues to develop.

Pupils:

- are responsible for using the Trust digital technology systems in accordance with the Pupil Acceptable Use Policy
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the school's / academy's E-Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The Trust will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website / VLE and information about national / local e-safety campaigns / literature. Parents and carers will be encouraged to support the Trust in promoting good e-safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website / VLE and on-line pupil records
- their children's personal devices in the Trust (where this is allowed)

Community Users

Community Users who access school systems / website / VLE as part of the wider Trust provision will be expected to sign a Community User AUA before being provided with access to school systems. (A Community Users Acceptable Use Agreement Template can be found in the appendices.)

Policy Statements

Education - pupils

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A [planned online safety curriculum](#) for all year groups matched against a nationally agreed framework e.g. [Education for a Connected Work Framework by UKCIS/DCMS](#) and the [SWGfL Project Evolve](#) and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through [effective planning and assessment](#)
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc

- it incorporates/makes use of relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#)
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school. Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the [CyberChoices](#) site.
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion.
- appointment of digital leaders/anti-bullying ambassadors/peer mentors
- the Online Safety Group has learner representation
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- learners designing/updating acceptable use agreements
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Education – parents / carers

Many parents and carers have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, web site, VLE
- Parents / Carers evenings / sessions
- High profile events / campaigns e.g. Safer Internet Day
- Reference to the relevant web sites / publications

Education & Training – Staff / Volunteers

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- **A programme of e-safety training will be made available to staff. This will be regularly updated and reinforced.** It is expected that some staff will identify e-safety as a training need within the performance management process.
- **All new staff should receive e-safety training as part of their induction programme, ensuring that they fully understand the school e-safety policy and Acceptable Use Agreements**
- The E-Safety Coordinator / IT Lead (or other nominated person) will receive regular updates through attendance at external training events, other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This E-Safety policy and its updates will be presented to and discussed by staff in staff / team meetings / INSET days as appropriate.
- The E-Safety Coordinator / Officer (or other nominated person) will provide advice / guidance / training to individuals as required.

Training – Governors / Directors

Governors / Directors should take part in e-safety training / awareness sessions, with particular importance for those who are members of any sub committee / group involved in technology / e-safety / health and safety / child protection. This may be offered in a number of ways:

- Attendance at training provided by the Trust / National Governors Association / or other relevant organisation
- Participation in school training / information sessions for staff or parents

Technical – infrastructure / equipment,

The Trust has a managed ICT service provided by an outside contractor, it is the responsibility of the school to ensure that the managed service provider carries out all the e-safety measures that would otherwise be the responsibility of the school, as suggested below. It is also important that the managed service provider is fully aware of the Trust E-Safety Policy / Acceptable Use Agreements.

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-safety responsibilities:

- **Trust technical systems will be managed in ways that ensure that the Trust meets recommended technical requirements**
- **There will be regular reviews and audits of the safety and security of school academy technical systems**

- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to Trust technical systems and devices.
- All users will be provided with a username and secure password by the IT Lead who will keep an up to date record of users and their usernames. Users are responsible for the security of their username and password and will be required to change their password periodically). (Schools / Academies may choose to use group or class log-ons and passwords for KS1 and below, but need to be aware of the associated risks – see appendix)
- The “master / administrator” passwords for the Trust ICT system, used by the Network Manager (or other person) must also be available to Telford and Wrekin and kept in a secure place for back up arrangements.
- The IT Lead and managed IT Service providers are jointly responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations (Inadequate licencing could cause the school to breach the Copyright Act which could result in fines or unexpected licensing costs)

Filtering and monitoring

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

the filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

Checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced e.g. using [SWGfL Test Filtering](#)

Filtering

- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the DfE [Filtering standards for schools and colleges](#) and the guidance provided in the UK Safer Internet Centre [Appropriate filtering.](#)
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- the school has (if possible) provided enhanced/differentiated user-level filtering (allowing different filtering levels for different abilities/ages/stages and different groups of users: staff/learners, etc.)
- younger learners will use child friendly/age-appropriate search engines e.g. [SWGfL Swiggle](#)
- the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

If necessary, the school will seek advice from, and report issues to, the SWGfL [Report Harmful Content](#) site.

Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that the network (and devices) are monitored.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- Temporary access of “guests” can be facilitated (e.g. trainee teachers, supply teachers, visitors) onto the school systems but these guests must comply with the contents of this policy.
- Personal data (as defined in GDPR) cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance and protects users and school systems through the use of the appropriate blend of strategies informed by the school’s risk assessment. [These may include:](#)

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.
- where possible, school technical staff regularly monitor and record the activity of users on the school technical systems (SENSO)
- use of a third-party assisted monitoring service to review monitoring logs and report issues to school monitoring lead(s) (SENSO)

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements:

- responsibility for technical security resides with SLT who may delegate activities to identified roles.
- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the IT service provider and will be reviewed, at least annually, by the SLT/Online Safety Group
- password policy and procedures are implemented.
- the security of their username and password and must not allow other users to access the systems using their log on details.
- all users have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details.
- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone.

- the administrator passwords for school systems are kept in a secure place.
- there is a risk-based approach to the allocation of learner usernames and passwords.
- there will be regular reviews and audits of the safety and security of school technical systems.
- servers, wireless systems and cabling are securely located and physical access restricted.
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- Senior leaders and technicians are responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.

Bring Your Own Device (BYOD)

The educational opportunities offered by mobile technologies are being expanded as a wide range of devices, software and online services become available for teaching and learning, within and beyond the classroom. This has led to the exploration by schools of users bringing their own technologies in order to provide a greater freedom of choice and usability. However, there are a number of e-safety considerations for BYOD that need to be reviewed prior to implementing such a policy. Use of BYOD should not introduce vulnerabilities into existing secure environments. Considerations will need to include; levels of secure access, filtering, data protection, storage and transfer of data, mobile device management systems, training, support, acceptable use, auditing and monitoring.

Schools within the Trust only approve Trust facilitated BYODs which are imaged and set up to work within existing secure environments. As a result:

- The school has a set of clear expectations and responsibilities for all users
- The school adheres to the Data Protection Act principles
- All users are provided with and accept the Acceptable Use Agreement
- All network systems are secure and access for users is differentiated
- These devices are covered by the school's / academy's normal filtering systems, while being used on the premises

- All users will use their username and password and keep this safe
- Regular audits and monitoring of usage will take place to ensure compliance
- Any device loss, theft, change of ownership of the device will be reported
- Any user leaving the school that has a Trust facilitated BYOD will inform the school/technicians who will either re-image the device to work in another Trust school or will return the device to factory settings (and it will no longer be a BYOD for our Trust schools)

Artificial Intelligence (AI)

Although there are many benefits to the use of AI in the classroom, some of the limitations can include:

- Responses can be harmful, biased and inaccurate
- AI is evolving rapidly and new challenges will continue to emerge.
- There may be current gaps within safeguarding and regulation.

Understanding the limitations of AI, as an imperfect technology, can support with keeping pupils safe online, enabling them to apply critical thoughts to any response it creates. Including AI in E-Safety discussions can reinforce the importance of pupils having the confidence to talk through any concerns with a trusted adult. For example reminding the children not to include personal or sensitive information into an AI tool. Similarly, staff and pupils should both be aware that AI can lead towards improved approaches towards scamming and cyber attacks and cyber security should remain a high priority across the school.

SWGfL provides more information on the benefits and limitations of AI and is updated regularly to remain up to date.

<https://swgfl.org.uk/topics/artificial-intelligence/>

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm

- **When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.**
- In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other pupils in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Students' / Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.

- Written permission from parents or carers will be obtained before photographs of pupils are published on the school website
- Pupils' work can only be published with the permission of the pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The Trust must ensure that:

- **It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.**
- **Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.**
- **All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".**
- **It has a Data Protection Policy**
- **It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)**
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data storage meets the requirements laid down by the Information Commissioner's Office.

Staff must ensure that they:

- **At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.**
- **Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.**
- **Transfer data using encryption and secure password protected devices.**

When personal data is stored on any portable computer system or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

Please refer to the Trust Data Protection Policy for more information

Communications

This is an area of rapidly developing technologies and uses. A wide range of rapidly developing communications technologies has the potential to enhance learning. The table below shows how the school/Trust currently considers the benefit of using these technologies for education outweighs their risks / disadvantages. This section is influenced by the age of the pupils and has been completed considering this: (S – Secondary School; P – Primary Schools).

Communication Technologies	Staff & other adults				Pupils			
	Not Allowed	Allowed	Allowed at certain times/ places	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission
Mobile phones may be brought to school (Secondary are allowed to have them on their person)		S S	s P		SP			
Use of mobile phones in lessons	S SP				SP			
Use of mobile phones in social time within the school day			S PS		S SP			
Taking photos on mobile phones / cameras that are not Trust devices	SP			P	SP			
Use of other mobile devices e.g. tablets, gaming devices	SP				SP			
Use of personal email addresses in school, or on school network	SP				SP			
Use of school email for personal emails	SP				SP			
Use of messaging apps			PS		SP			
Use of social media				PS	SS SP			
Use of blog		PS						S SP

When using communication technologies the school considers the following as good practice:

- The official Trust /school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and pupils should therefore use only the Trust email service to communicate with others when in school, or on Trust systems (e.g. by remote access).
- Users must immediately report, to the nominated person – in accordance with the Trust policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents / carers (email, chat, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) Trust systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Whole class / group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual Trust email addresses for educational use.
- Pupils should be taught about e-safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the Trust website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

With an increase in use of all types of social media for professional and personal purposes a policy that sets out clear guidance for staff to manage risk and behaviour online is essential. Core messages should include the protection of pupils, the school and the individual when publishing any material online. Expectations for teachers' professional conduct are set out in 'Teachers Standards 2012'. While, Ofsted's e-safety framework 2012, reviews how a school protects and educates staff and pupils in their use of technology, including what measures would be expected to be in place to intervene and support should a particular issue arise.

All schools, academies and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the Trust liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- Training to include acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in personal social media to pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school /academy or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

The school's use of social media for professional purposes will be checked regularly by the senior staff to ensure compliance with the Social Media, Data Protection, Communications, Digital Image and Video Policies

Radicalisation and the Use of Social Media to encourage extremism

The internet and the use of social media has become a major way to communicate with others, especially young people, which has provided access for like-minded people to create an online community and confirm extreme beliefs such as extreme ideological views or the use of violence to solve problems. This has led to social media becoming a platform for:

- intensifying and accelerating the radicalisation of young people;
- confirming extreme beliefs;
- accessing to likeminded people where they are not able to do this off-line, creating an online community;
- normalising abnormal views and behaviours, such as extreme ideological views or the use of violence to solve problems and address grievances.

Shropshire Gateway Educational Trust has a number of measures in place to help prevent the use of Social Media for this purpose:

- Web site filtering is in place, and can be put in place, as appropriate to help prevent access to terrorist and extremist material and social networking sites (e.g Facebook, Instagram or Twitter)
- Pupils, Parents and Staff are educated in safe use of Social Media and the risks posed by on-line activity, including from extremist and terrorist groups.

Further details on how social media is used to promote extremism and radicalisation can be found in guidance from the Department for Education: 'How Social Media Is Used To Encourage Travel To Syria And Iraq: Briefing Note For Schools.'

Unsuitable / inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from Trust and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities. The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems:

User Actions

		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	pornography					X
	promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business				X		
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the Trust				X		
Infringing copyright				X		
Revealing or publicising confidential or proprietary information (e.g. financial / personal information, databases, computer / network access codes and passwords)				X		
Creating or propagating computer viruses or other harmful files				X		
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X		
On-line gaming (non-educational)				X		
On-line gambling				X		
On-line shopping / commerce				X		
File sharing			X			
Use of social media			X			
Use of messaging apps			X			
Use of video broadcasting e.g. YouTube			X			

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above). Please consult the school Safeguarding Policy for further information.

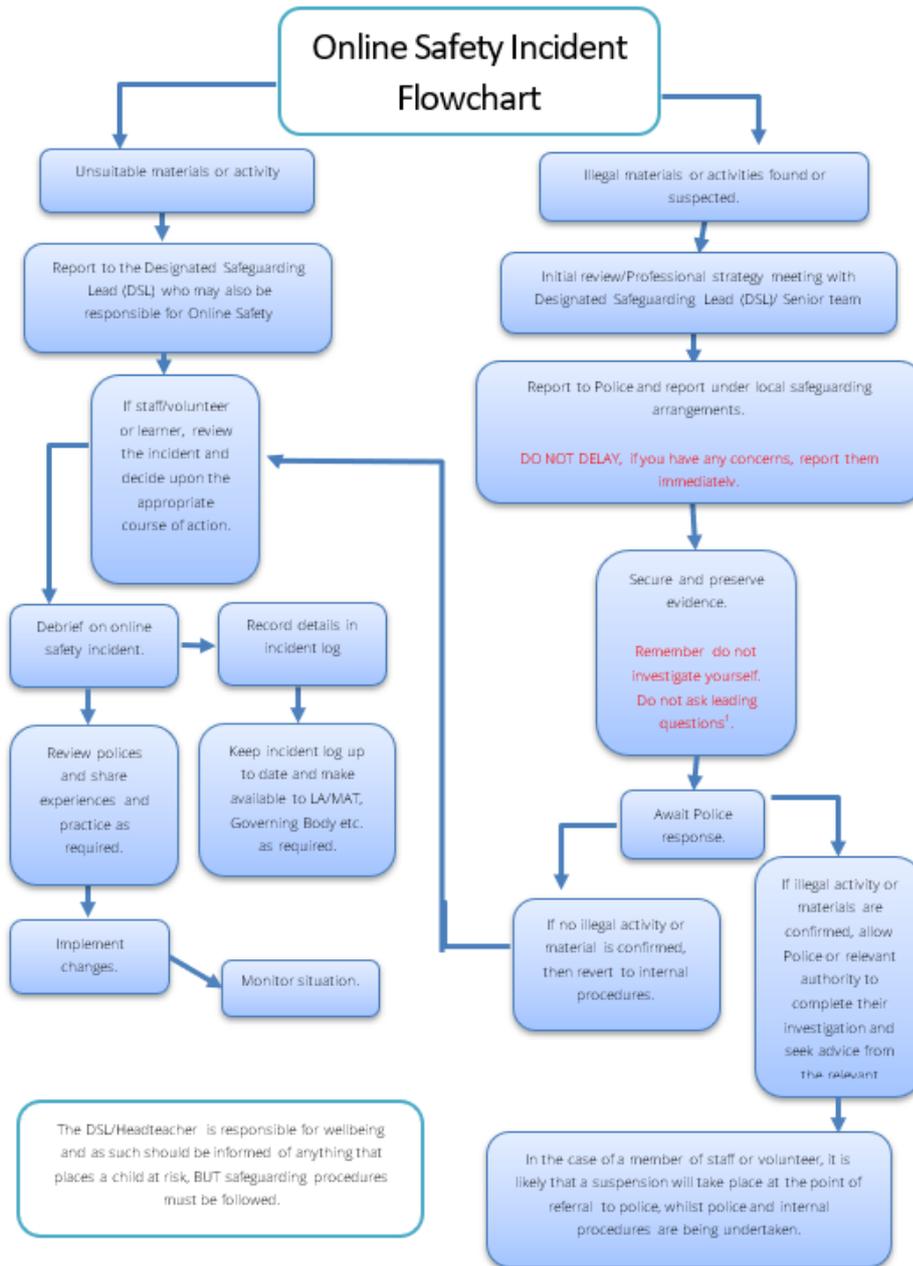

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- **there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints/ managing allegations policies.**
- **all members of the school community will be made aware of the need to report online safety issues/incidents**
- **reports will be dealt with as soon as is practically possible once they are received**
- **the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.**
- **if there is any suspicion that the incident involves any illegal activity or the potential for serious harm ([see flowchart below](#)), the incident must be escalated through the agreed school safeguarding procedures, this may include**
 - Non-consensual images
 - Self-generated images
 - Terrorism/extremism
 - Hate crime/ Abuse
 - Fraud and extortion
 - Harassment/stalking
 - Child Sexual Abuse Material (CSAM)
 - Child Sexual Exploitation Grooming
 - Extreme Pornography
 - Sale of illegal materials/substances
 - Cyber or hacking [offences under the Computer Misuse Act](#)
 - Copyright theft or piracy
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority / MAT
- where there is no suspected illegal activity, devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
 - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - internal response or discipline procedures
 - involvement by local authority / MAT (as relevant)
 - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged ([see incident log sheet below](#)).
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; [Professionals Online Safety Helpline](#); [Reporting Harmful Content](#); [CEOP](#).
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided to:
 - *the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with*
 - *staff, through regular briefings*
 - *learners, through assemblies/lessons*
 - *parents/carers, through newsletters, school social media, website*
 - *governors, through regular safeguarding updates*
 - *local authority/external agencies, as relevant*

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right-hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow Trust policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary, can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority or national / local organisation (as relevant).
 - Police involvement and/or action
- **If content being reviewed includes images of Child abuse, then the monitoring should be halted and referred to the Police immediately (See Safeguarding Policy). Other instances to report to the police would include:**
 - incidents of ‘grooming’ behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the Trust and possibly the police and demonstrate that visits to these sites were carried out for child protection purposes. The completed form should be retained by the group for evidence and reference purposes.

Trust Actions & Sanctions

It is more likely that the Trust will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

Pupils Actions / Sanctions (* indicates use if repeated incident)

Incidents:	Refer to class teacher / tutor	Refer to Head of Department / Head of Year / other	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering / security etc	Inform parents / carers	Removal of network / internet access rights	Warning	Further sanction e.g. detention / exclusion

Appendix A - AUP for Staff, Governors & Volunteers

I understand that the school will monitor my use of the school digital technology and communications systems.

I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school.

I understand that I have personal and legal responsibilities, including treating others with dignity and respect, acting honestly, using public funds and school equipment appropriately, adhering to health and safety guidelines and safeguarding pupils at all times.

I understand that I must use school devices and systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of systems and other users.

I recognise the value of the use of digital technology for enhancing learning and will ensure that students receive opportunities to benefit from the use and application of appropriate digital technology.

I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with children and young people.

Professional and personal safety:

- I understand that the school has in place a filtering system and will monitor my access to digital technology and communications systems whilst using school devices, and/or access to the school network via personal devices, where such access has been granted.
- I understand that the rules set out in this agreement also apply to use of school devices and digital technologies out of school, and to the transfer of personal data (digital or paper based) out of school.
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use in line with the e-safety policy and the expectations of professional behaviour set out in the Staff Code of Conduct.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should keep passwords safe and not share them with anyone.
- I will immediately report any incidence of access to illegal, inappropriate or harmful material, deliberate or accidental, by myself or others, to the appropriate person.
- I will not install or attempt to install programmes of any type on a device, nor will I try to alter computer settings, unless this is permitted by the Network Manager.
- I will not deliberately disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the Data Protection Policy
- I understand that data protection policy requires that any staff or student data to which I have access, will be kept private and confidential, except when required by law, or by school policy, to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving devices or software, however this may have happened.
- I will ensure that I have permission to use the original work of others in my own work.
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will log out of a device when I have finished using it.

Electronic communications and use of social media:

- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will use social networking sites responsibly, taking care to ensure that appropriate privacy settings are in place, and ensure that neither my personal nor professional reputation, nor the school's reputation, is compromised by inappropriate postings, to include past postings.
- I will never send or accept a 'friend request' made through social media from a student at school. I understand that such requests should be raised formally as an incident.
- I will not, under any circumstances, make reference to any staff member, student, parent or school activity/event via personal social media or other communication technologies.
- I will only communicate with students and parents/carers using official school systems. Any such communication will be professional in tone and manner. At no time will I use or share a personal email address, phone number or social networking site for such communication purposes.
- I will notify the Headteacher of any current or future, direct or incidental contact with students, parents or carers, for example where parents or carers are part of the same social group
- I will not engage in any online activity, at, or outside school, that may compromise my professional responsibilities. This includes making offensive, aggressive or defamatory comments, disclosing confidential or business-sensitive information, or information or images that could compromise the security of the school.
- I will not use the school's name, logo, or any other published material without written prior permission from the Headteacher. This applies to any published material, online or in print.
- I will not post any communication or images which links the school to any form of illegal conduct or which may damage the reputation of the school.

Use of school and personal mobile devices and technologies

- When I use my own mobile device (e.g. laptop / tablet / mobile phone / USB device) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will keep my personal phone numbers private and not use my own mobile phone, or other device, to contact students or parents in a professional capacity.
- I will keep my mobile phone secure whilst on school premises. It will be switched off whilst I am on duty unless there are good reasons that have been approved with a member of the senior leadership team, and then that is discreet and appropriate, e.g. not in the presence of students.
- I will keep mobile devices switched off and left in a safe place during lesson times. I understand that the school cannot take responsibility for personal items that are lost or stolen.
- I will report any text or images sent to me by colleagues or students which could be viewed as inappropriate. I will not use a personal device to photograph a student(s), except with the written permission of the Headteacher.
- I will not use personal email addresses on the school ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails if I have any concerns about the validity of the email or its source is neither known nor trusted.

- I will, when I take and/or publish images of others, do so with their permission and in accordance with the school’s policy on the use of digital/video images. I will not use any personal devices to record these images, unless I have written permission from the Headteacher. Where these images are approved by the school to be published (e.g. on the school website) it will not be possible to identify by name, or any other personal information, those who are featured.
- I will not attempt to upload, download or access any material which is illegal (for example; images of child sexual abuse, criminally racist material, adult pornography), inappropriate or may cause harm or distress to others. I will not attempt to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not (unless I have permission) make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.

Conduct and actions in and out of the school:

- I understand that this Acceptable Use Policy applies not only to my work and use of school devices and digital technology in school, but also applies to my use of school systems and equipment off the premises. This Acceptable Use Policy also applies to my use of personal devices on the premises or in situations related to my employment by the school.
- I understand that should I fail to comply with this Acceptable Use Policy Agreement, I may be subject to disciplinary action in line with the school’s agreed Disciplinary Procedure. In the event of any indication of illegal activity, I understand the matter may be referred to the appropriate agencies.

I have read and understood the above, and agree to use school devices and access digital technology systems (both in and out of school), as well as my own devices (in school and when carrying out communications related to the school), within this agreement.

I understand that in the event of any query or concern about this Agreement, I should contact the Headteacher.

Appendix B - **AUP for learners in KS1/EYFS**

(may be amended to a format appropriate to the age of the children)

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers/tablets.
- I will only use activities that a teacher or suitable adult has told or allowed me to use.
- I will take care of computers/tablets and other equipment.
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong.
- I will tell a teacher or suitable adult if I see something that upsets me on the screen.
- I know that if I break the rules, I might not be allowed to use a computer/tablet.

Appendix C - AUP for learners in KS2

Introduction

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies are powerful tools, which open-up new opportunities for everyone. They can stimulate discussion, encourage creativity, and stimulate awareness of context to promote effective learning. Learners should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

When I use devices I must behave responsibly to help keep me and other users safe online and to look after the devices.

For my own personal safety:

- I understand that what I do online will be supervised and monitored and that I may not be allowed to use devices in school unless I follow these rules and use them responsibly.
- I will only visit internet sites that adults have told me are safe to visit.
- I will keep my username and password safe and secure and not share it with anyone else.
- I will be aware of “stranger danger” when I am online.
- I will not share personal information about myself or others when online.
- If I arrange to meet people off-line that I have communicated with online, I will do so in a public place and take a trusted adult with me.
- I will immediately tell an adult if I see anything that makes me feel uncomfortable when I see it online.

I will look after the devices I use, so that the school and everyone there can be safe:

- I will handle all the devices carefully and only use them if I have permission.
- I will not try to alter the settings on any devices or try to install any software or programmes.
- I will tell an adult if a device is damaged or if anything else goes wrong.
- I will only use the devices to do things that I am allowed to do.

I will think about how my behaviour online might affect other people:

- When online, I will act as I expect others to act toward me.
- I will not copy anyone else’s work or files without their permission.
- I will be polite and responsible when I communicate with others, and I appreciate that others may have different opinions to me.
- I will not take or share images of anyone without their permission.

I know that there are other rules that I need to follow:

- Where work is protected by copyright, I will not try to download copies (including music and videos).
- When I am using the internet to find information, I should take care to check that the information is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.
- I should have permission if I use the original work of others in my own work.

I understand that I am responsible for my actions, both in and out of school:

- I know that I am expected to follow these rules in school and that I should behave in the same way when out of school as well.
- I understand that if I do not follow these rules, I may be subject to disciplinary action. This could include *loss of access to the school network/internet, detentions, suspensions, parents/carers contacted and in the event of illegal activities involvement of the police.*

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Appendix D - AUP for learners in KS3 and above

School policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the *learners* to agree to be responsible users.

Acceptable Use Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the schools will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc.)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the school's systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not use the school's systems or devices for on-line gaming, on-line gambling, internet shopping, file sharing, or video broadcasting (e.g. YouTube), unless I have permission of a member of staff to do so.

I will act as I expect others to act toward me:

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:

- I will only use my own personal devices (mobile phones/USB devices etc.) in school if I have permission. I understand that, if I do use my own devices in the school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment.
- I understand the risks and will not try to upload, download, or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software; however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person/organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.
- I will only use social media sites with permission and at the times that are allowed.

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be online-bullying, use of images or personal information).
- I understand that if I fail to comply with this acceptable use agreement, I may be subject to disciplinary action. This could include loss of access to the school network/internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

I have read and understand the above and agree to follow these guidelines when:

- I use the school's systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I use my own equipment out of the school in a way that is related to me being a member of this school e.g. communicating with other members of the school, accessing school email, VLE, website etc.

Appendix E– Sample Home-school E-safety; ICT, Mobile Phones, Personal Photographs and Social Media

Student Name	
Student's class teacher/form name	
Parent/Carer/Guardian's name	

Use of School ICT Equipment and Internet Access

As the parent or legal guardian of the above-named student, I give permission for my child to access the Internet, school email and other ICT facilities, whilst at school. I understand that my child has signed an Acceptable Use Policy (AUP) confirming their understanding and acceptance of the proper use of school and personal ICT equipment. I also understand that my child may be informed, should the rules change or be updated, during the year.

I accept that ultimately, the school cannot be held responsible for the nature and content of materials accessed through the Internet and mobile technologies, but I understand that the school will take every reasonable precaution to keep students safe and to prevent them from accessing inappropriate materials. These steps include the school using a filtered internet service, providing secure access to email, employing appropriate teaching practice and teaching e-safety skills to students, across the curriculum.

I understand that the school can monitor my child's computer files and the Internet sites they visit. I also understand that the school may contact me if there are concerns about my child's online behaviour or safety. I will support the school by promoting safe use of the internet and digital technology at home, and will inform the school if I have any concerns about my child's e-safety.

Mobile Phones and other Personal Devices

Primary version:

I understand that if my child has a mobile phone it should be handed into the office at the beginning of the day and collected at the end of the day (primary). I understand that 'Smart' watches or similar must not be brought to school under any circumstances.

Secondary version:

I understand that unless my child is given permission by a teacher, their mobile phone and any other personal device should be switched off and kept out of sight during the school day. This includes during off-site activities. If my child breaks this rule, I understand that the phone or device will be confiscated and I will be asked to collect it in person, at the end of the school day.

Personal Photographs and Social Media

I am aware that the school permits parents/carers to take photographs and videos of their own children at school events but requests that where the photos/videos contain images of other children, these are not shared on any social networking site such as Facebook or Instagram. I will support the school's approach to e-Safety and will not post, upload or add any text, image or video that could upset, offend or threaten the safety of any member of the school community

When communicating with the school via official communication channels, or using private/independent channels to talk about the school, I will:

- Be respectful towards members of staff, and the school, at all times
- Be respectful of other parents/carers and children
- Direct any complaints or concerns through the school's official channels, so they can be dealt with in line with the school's complaints procedure

I will not:

- Use private groups, the school's Facebook page, or personal social media to complain about or criticise members of staff. This is not constructive and the school can't improve or address issues if they aren't raised in an appropriate way
- Use private groups, the school's Facebook page, or personal social media to complain about, or try to resolve, a behaviour issue involving other pupils. I will contact the school and speak to the appropriate member of staff if I'm aware of a specific behaviour issue or incident
